II. Management Policies

1. Basic Management Policies

The AIFUL Group's primary mission is to earn the support of the general public. The Group's efforts to prioritize customer convenience and become a comprehensive financial services group that is reliable and creative are a reflection of this basic stance on catering to the needs of all its customers. This primary mission drives the Group's endeavors to grow its business and become a source of profit for all of its stakeholders, including customers, shareholders and employees, thus bringing about a future of "Prosperity for All."

2. Basic Policies on Profit Distribution

The AIFUL Group's basic dividend policy is to consistently distribute profits to shareholders on the basis of a comprehensive assessment of the economic and financial situation and the Company's own business performance.

Based on this policy, AIFUL aims to distribute profits to shareholders and maximize shareholder value via medium to long-term profit growth. Internal reserves are to be used to extend loans, as well as in strategic investments that contribute to the expansion of the earnings base for the Group as a whole, while working to improve business results and management efficiency so that AIFUL continues to meet the expectations of all its shareholders.

3. Management Indicator Objectives

AIFUL believes that its position in the financial industry makes it essential for management to increase efficiency in its use of assets and the returns gained on those assets and has established the maximization of group ROA as a management goal. AIFUL has set 3.6% as a concrete medium-term goal for consolidated ROA.

4. Medium and Long-Term Business Strategies

Japan's consumer credit market is currently worth approximately 59.5 trillion yen (based on the balance of credit extended), a total that includes 14.8 trillion yen in retail credit and 34.6 trillion yen in consumer loans (excluding deposit and savings-secured loans). Consumer finance companies in particular have continued to see high growth in the consumer loan market, expanding from a 9.0% share in fiscal 1991 to a 29.5% share, worth some 10.2 trillion yen, in fiscal 2003. Also, the consumer finance market is expected to grow further in the medium to long term.

More aggressive strategies to enter the retail sector, primarily on the part of major banking groups, indicate that competition for a share of the overall consumer finance market is heightening and has crossed industry lines.

Based on this operating environment, the AIFUL Group is seeking to develop its business based primarily on the unsecured loan sector while aggressively expanding into the home equity loan, small business loan and credit card sectors, taking the balance between growth and security into account. Moreover, the Group is widening its focus from the traditional retail sector, which targets loans for individual customers, to a more broadly defined retail sector that encompasses business loans for small and medium enterprises. Catering to diverse customer needs through product diversification and diversification of customer acquisition channels by making use of the multiple brands within the Group, which include credit sales major LIFE Co., Ltd., Businext Co., Ltd., which offers loans to small business, and City's Corporation, AIFUL will secure stable growth and profitability into the future and is pursuing further growth while diversifying risk.

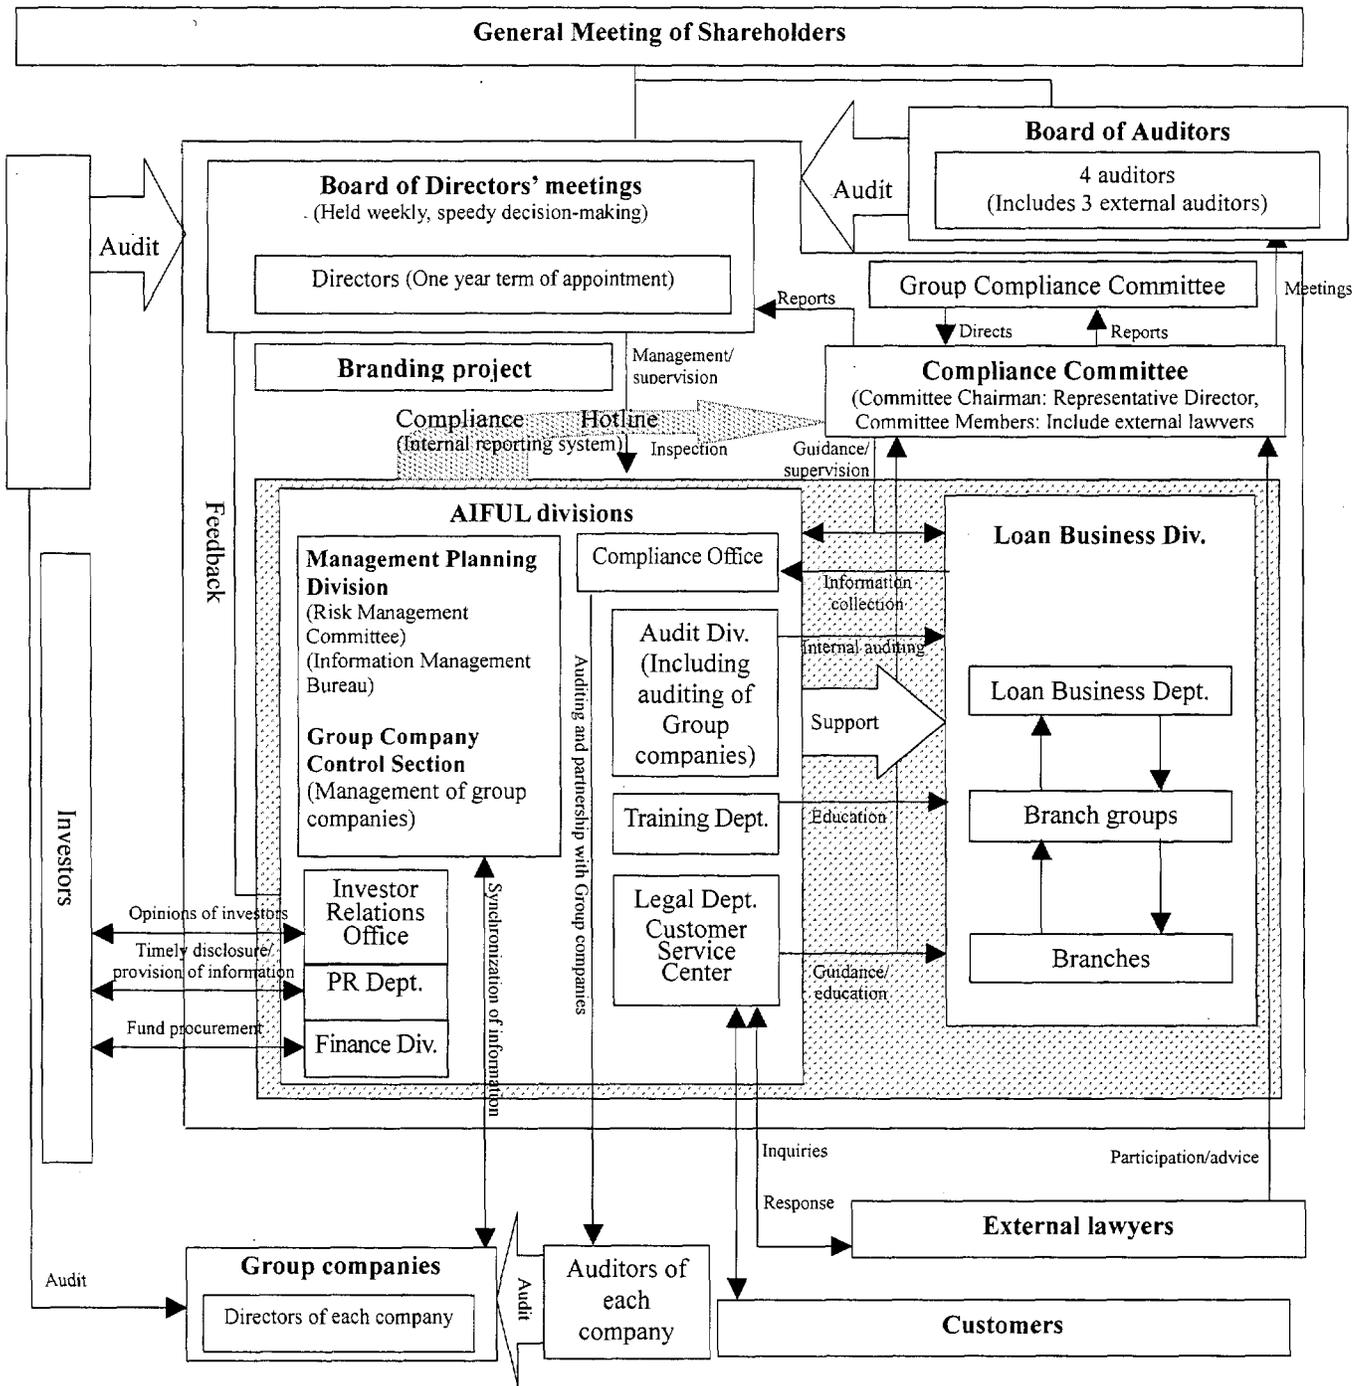

Looking to the future, AIFUL will continue to seek synergies based on seamless integration between Group companies and the strengthening of intra-Group ties and aims to become the No. 1 comprehensive domestic retail lender by exercising rigorously efficient management.

5. Basic Stance with Regard to Corporate Governance and Current Status of Related Policies

A. Basic Stance with Regard to Corporate Governance

The AIFUL Group considers speed in decision-making, the establishment of management supervisory functions, and the reinforcement of compliance and disclosure to be its basic policies for the enhancement of corporate governance.

Its corporate governance, business execution, management supervisory and internal controls, and risk management systems are as indicated in the diagram below.

B. AIFUL's Business Execution, Management Supervisory and Internal Controls, and Risk Management Systems

In a measure aimed at speedy management decision-making, the AIFUL and LIFE Boards of Directors meet weekly (Boards of Directors meet monthly at other group companies) to fully discuss and examine management issues and business opportunities facing the companies, as well as strategies to address them. Speedy management decisions follow these discussions.

In its efforts to enhance legal compliance, AIFUL has had an Inspection Department, an Internal Audit Department, and Legal Department, in charge of preventative legal affairs, in place for some time. In addition to this, the Company established a Compliance Committee, which includes lawyers and other external members and serves as a consultative body for the Board of Directors, in April 2002. At monthly meetings, the Compliance Committee gathers risk information, implements preventative measures, and conducts employee education based on the committee guidelines, working to reinforce compliance systems throughout the whole Company.

In addition, AIFUL has established a new Compliance Office, an organization dedicated to conducting ongoing examination and assessment of these issues on a company-wide basis to ensure that the compliance system continues to improve and that appropriate corporate ethics take root group-wide.

With these efforts, AIFUL is appropriately synchronizing information with other group companies and working to enhance the group's overall compliance system.

On October 1, 2005, the Company established the AIFUL Group Compliance Committee as the apex organization for the Compliance Committees at each Group company, aiming to ensure common corporate ethics for the Group overall and the establishment of an overall compliance system.

C. Current Status of Corporate Governance Policies

(1) Management Control System and Other Corporate Governance Structures Relating to Management Decision Making, Business Execution and Monitoring and Status of Efforts to Enhance Corporate Governance during the Past Year

i) Details of Company Organizations and Establishment of Internal Control System

a. Details of Company Organizations

In order to respond to the establishment of new legislation and legal amendments that profoundly affect AIFUL's operations, such as the Personal Information Protection Act, as well as to ensure further enhancement of its compliance system and the establishment of appropriate corporate ethics, the Company established a new Compliance Office in April 2005, as a specialist division to conduct ongoing examination and assessment of these issues on a company-wide basis.

b. Training and Establishment of Hotlines

Other steps taken here include the formulation and distribution to each and every Group employee of the "AIFUL Group Ethical Code," as well as the establishment of hotlines in the Personnel and Inspection Departments for discussion of breaches of the code. AIFUL has also established a Customer Service Center within the Legal Department to respond promptly to customer inquiries and complaints, with the aim of increasing customer satisfaction and reinforcing the legal compliance system, which includes guidance and education for the sales and marketing staff in cooperation with the Compliance Committee.

In addition to the establishment of a new Compliance Hotline in June 2003, the Company standardized its internal reporting system, establishing a structure in which any breach of the law or internal regulations is exhaustively reported.

c. Ensuring Accuracy in Disclosure of Financial Information and Internal Control

The AIFUL Group's system for ensuring the accuracy of financial information consists of the prescribed checking procedures in the Accounting Department and audits based on the Commercial Code and the Securities and Exchange Law. Apart from this, AIFUL has long maintained an organizational structure based on the separation of the division in charge of financial accounting (Accounting Department) and the division in charge of management accounting (Management Planning Department), which provides a system of checks and balances.

Moreover, the Company's efforts to ensure accuracy in financial reporting include additional checks made in advance of the disclosure of financial reports by related departments, including the Investor Relations Office, the Public Relations Department, the Legal Department, and the Management Planning Department.

d. Enhancing Disclosure and Internal Control

AIFUL believes that appropriate disclosure of business information will make external monitoring of management more effective. Based on the principle of aiming for transparent management and effective corporate governance, AIFUL strives to provide full disclosure that is timely and easy to understand. Its activities include maintaining an investor relations web site, disclosing information through press releases, settlement data books and similar materials, as well as providing information and briefings for the domestic and foreign mass media, investors and analysts.

AIFUL also provides regular feedback to the president, Board of Directors' meetings and departmental managers on the opinions and desires of investors in its efforts to enhance disclosure

ii) Establishment Status of Risk Management System

With regard to its risk management system, AIFUL has established a system in which the Risk Management Committee within the Management Planning Division primarily gathers information on latent and apparent risk factors within the Company, and conducts crisis management in cooperation with related departments, including the Investor Relations Office, Public Relations Department and Legal Department.

Moreover, in response to the Personal Information Protection Law, which came into force on April 1, 2005, the Company launched a project in April 2004 to prevent the leaking of information, carrying out a review of the proper handling of personal information and company-wide security management measures to prevent the leakage of personal information before it happens in terms of the human, organizational and technical aspects and establishing a system to prevent the disclosure of personal information.

Moreover, AIFUL has prepared an action plan for when problems relating to personal information or corporate information arise at the Company or at Group companies, and has set up a new Information Management Contingency Plan, for which the Information Management and Administration Office within the Management Planning Department is responsible, with the aim of addressing emergencies properly and promptly, thus establishing a strong system for responding to emergencies.

iii) **Internal Auditing and Auditing System and Status of Auditing**

a. **Internal Auditing and Auditing System**

AIFUL established the Inspection Department with the aim of monitoring the appropriateness and legality of business processes, including at Group companies. It works on a day-to-day basis to detect and curb deviations by conducting regular inspections, primarily at the business offices of AIFUL and its Group companies.

With regard to the management supervisory function, AIFUL employs an auditor system, which has four auditors, including three external auditors. The auditors not only supervise management through attendance at the weekly Board of Directors meetings at AIFUL and LIFE, but also attend the Compliance Committee and work in close cooperation with the Inspection Department, the internal audit department, to firmly implement the auditing system. Moreover, the auditors of the Company and each group company work in conjunction with the Group Company Control Section and the Inspection Department to provide the auditing system for Group company audits, as well.

b. **Auditing**

AIFUL employs Deloitte Touche Tohmatsu and Shimbashi & Co. as auditors based on the Commercial Code and for audits based on the Securities and Exchange Law. There are no beneficial relationships between these audit corporations and the employees engaged in conducting audits at AIFUL and AIFUL.

(2) **Existence of Personal, Financial, Business or Any Other Beneficial Relationship Between the Company, and the External Directors and External Auditors**

There is no business or other beneficial relationship between the Company and its external auditors.

6. **Brand Strategy Policies**

In October 1999, AIFUL commenced a company-wide branding project. To date, this project has been responsible for generating a wide range of proposals related to the Company's branding initiatives. From April 2003 onwards, the system has been revitalized by bringing it under the direct control of top management, which has positioned it as its highest priority.

Under the new project, "A Company for Security and Creation" was selected as the concept to unify the large number of different AIFUL brands. Adopting improvement in corporate value itself based upon progress in customer satisfaction and employee satisfaction, as the primary goal for brand strategies, AIFUL plans, in turn, to boost investor satisfaction. In this manner, the Company will create real "Prosperity for All," the management ideal outlined in its corporate principles.

In February 2004, AIFUL established "With Heartful Communication" as its brand statement. The Company intends to expand a variety of communication programs in an integrated manner to further strengthen the AIFUL brand.

The Company is also involved in activities as a good corporate citizen, supporting marathons and other sports events that bring AIFUL and local residents closer together.

III. Results of Operations and Financial Position

1. Summary of Operations

A. Business Environment

Looking at the Japanese economy during the current interim period, according to the Bank of Japan's Tankan Survey released in September, manufacturing business conditions at large companies, considered an indicator of economic trends, improved by one point compared to the previous survey in June 2005, recording its second successive improvement. Moreover, real GDP growth for the April – June period, which was announced in September 2005, was positive for a third consecutive quarter, and factors such as firm capital expenditure and a recovery in personal consumption indicate that the economy has broken out of stagnation into a sustained recovery.

In this economic environment, bad debt expenses in the consumer finance industry are on the decline, with the number of applications for personal bankruptcy as published by the Supreme Court registering year-on-year declines for 22 months in a row. Nevertheless, there is increasingly stiff competition for share in the overall consumer credit market across industry boundaries as major consumer finance companies and mega-banks become involved in operational tie-ups, IT companies enter the finance industry, and credit card companies strengthen their cash advance operations.

In this operating environment, as described earlier, the AIFUL Group is seeking to develop its business based primarily on the unsecured loan sector while aggressively expanding into the home equity loan, small business loan and credit card sectors, taking the balance between growth and security into account. Further, it is widening its focus from the traditional retail sector, which targets loans for individual customers, to a more broadly defined retail sector that encompasses business loans for small and medium enterprises.

The AIFUL Group has continued to promote diversification of products and sales channels based on the multiple brands within the Group to cater to a wider range of customer needs, while diversifying risks to ensure stable growth and profitability. Moreover, each company that belongs to the Group has also been striving to develop efficient operations while working together to generate synergistic effects and strengthen the Group.

B. Operations

(1) AIFUL Corporation

During the current interim period, AIFUL's loan business witnessed the Company pursuing product diversification strategies chiefly in unsecured loans as well as home equity loans and small business loans, in order to more comprehensively cater to customer needs. A summary by product is as below.

i) Unsecured Loans

There were 262,000 new applications for unsecured loans during the current interim period, a decrease of 6.4% compared to the same quarter last year, and new account acquisitions were 164,000, down 7.7% year-on-year. Among these, the proportion of new account acquisitions via the Internet, including cellular phone and PC, rose steadily to 14.0%, up 10.9% year-on-year, as a result of aggressive use of banner advertisements on websites.

As a result, unsecured loans outstanding stood at 1,115,158 million yen, up 2.7% year-on-year at the end of the first quarter of fiscal 2005.

ii) Home Equity Loans and Small Business Loans

AIFUL's product diversification strategy involves home equity loans and small business loans, and the Company has positioned these areas as key products in maintaining long term growth potential. The balance of loans outstanding for these products in the current interim period was 342,265 million yen, down 0.4% year-on-year, for home equity loans and 35,474 million yen, up 17.6% year-on-year, for small business loans.

A summary of business other than loan operations is as follows.

iii) Credit Guarantees

The guarantee business is a fee business in which AIFUL provides guarantees for loan products handled by financial institutions, and the Company has been developing the business as a new source of earnings. In addition to unsecured personal loans, the Company has also been active in guarantee operations for unsecured small business loans using the expertise it has built up, through product diversification strategies, in the provision and screening of small business loans. The entire financial industry is now taking note of this credit guarantee market, especially loans to small businesses, and AIFUL is becoming more active in it.

As a result of these efforts, at the end of the current interim period, AIFUL's guarantee partners numbered 44 unsecured personal loan companies and 40 small business loan companies, and the balance of guarantees stood at 52,668 million yen, marking steady growth of 56.9% compared with the same period last year.

iv) Credit Cards

With regard to AIFUL's own AIFUL MasterCard credit card operation, co-branded card development operations were transferred in April 2005 from the credit card division of the Company and merged with LIFE with the aim of conducting a more efficient credit card strategy in the Group.

v) Expansion of Channels

To expand customer acquisition channels, AIFUL strengthened the development of branches based on the "Suguwaza" loan contract machine; 100 machines have been installed, as of the end of the current interim period.

In the first quarter of fiscal 2005, the Company revised upward the number of branches where Suguwaza machines were to be installed from 50 to 250 in its projections for the end of the fiscal year. With the development of an additional 100 branches, projections for the end of the current fiscal year are 350 branches with the Suguwaza machines.

Moreover, in the rebuilding of its branch network, the Company opened 102 branches, including branches with Suguwaza machines installed, and closed seven branches, bringing the total number of branches to 1,667, with 541 staffed and 1,126 non-staffed facilities, at the end of the current interim period.

In its expansion of cash deposit and withdrawal services, the Company actively entered partnerships with banks and convenience stores to improve convenience for customers. As a result, customers had access to 84,474 CDs/ATMs, including AIFUL's own ATMs and those of 93 banks and 14 companies, at the end of the current interim period.

For AIFUL, bad debt expenses were 45,165 million yen at the end of the current interim period, down 9.4% year-on-year, as a result of factors such as the contraction in the number of personal bankruptcies and an improvement in the unemployment rate.

As a result, AIFUL's loans outstanding at the end of the current interim period stood at 1,492,898 million yen, an increase of 2.3% year-on-year.

Apart from this, AIFUL has been working to open up its own nationwide ATMs to other companies in an efficient use of management resources, and it had 14 ATM partner companies at the end of the current interim period. Since September 26, 2005, the Company has opened up a new deposit function for World Co., Ltd., in addition to the existing withdrawal and balance inquiry functions.

(2) LIFE Co., Ltd.

In the current interim period, LIFE further increased its focus on the credit card business while continuing to consolidate the foundations of its existing businesses, primarily in per-item credit.

In its credit card business, LIFE has been actively promoting the affinity sector as a new sector for credit card tie-ups and negotiations on corporate alliances. Moreover, it has continued to promote co-branded cards in the retail industry, which has been its main target for co-branded cards in the past. In the current interim period, LIFE entered a new partnership with major mail order company Image Co., Ltd., and began accepting applications for the Image Club Card, a credit card with a points function. Apart from this, it has been seeking a steady expansion in the number of cardholders based on a wide-ranging co-branded card strategy that includes the launch of TRX Card, a new social contribution card issued in conjunction with a recycling group.

Moreover, LIFE supported the Real Madrid World Tour in 2005 in Japan in July 2005, acquiring new cardholders and stimulating existing cardholders due to the high level of advertising and promotion and the improvement in the strength of its brand that resulted from putting the company name LIFE Card Cup on this newsworthy event. Furthermore, from this year, LIFE also sponsored the Life Card Ladies Golf Tournament 2005, which is recognized by The Ladies Professional Golfers' Association of Japan.

Apart from this, LIFE achieved a big impact as its third round of mixed media commercials went on air on its website, in magazines and so on on July 1, 2005 with the aim of establishing its brand image as a credit card company. The first and second round of commercials were also big hits. These results included a three-fold increase in the number of hits on the company's website compared to before the commercials.

As channels for delivering its cash advance services, the company has 137,000 CD/ATMs at 491 partner financial institutions and credit card companies, as of the end of the current interim period.

As a result, the total number of credit card holders at the end of the current interim period rose 520,000 to 12,430,000.

In addition, on July 11, 2005 LIFE began handling the "Higashi Nippon Bank Cash Card - Next to You," a Bank Alliance Card that incorporates a credit card with a cash card issued in conjunction with a financial institution, based on its alliance with Higashi Nippon Bank. In the future, LIFE will promote this business aggressively with the aim of expanding its involvement with other banks.

In its per-item credit business, LIFE is working to increase business volume and accumulate prime assets by strengthening and enhancing the efficiency of its sales organization.

In its consumer finance business, LIFE opened eight new unstaffed branches, bringing the number of LIFE Cash Plazas to 114 staffed branches and 96 unstaffed branches. LIFE is continuing to expand its loans outstanding by aggressively acquiring new customers.

In its guarantee business, LIFE had guarantee partnerships with 128 banks, and it will continue its efforts to expand bank loan guarantee products in the future.

As a result of the foregoing, operating loans outstanding in the current interim period totaled 769,643 million yen, up 5.6% year-on-year (including 159,278 million yen in operating loans taken off the balance sheet by securitization.) This total consisted of credit card shopping up 19.0% year-on-year to 88,826 million yen, per-item credit up 3.7% to 194,210 million yen, credit card cash advances up 7.6% to 383,158 million yen, credit guarantee installment receivables down 7.2% to 94,799 million yen, and other businesses down 2.5% to 8,648 million yen.

Meanwhile, the volume of business was up 24.6% year-on-year to 223,061 million yen for credit card shopping, down 11.7% to 68,659 million yen for per-item credit, up 13.7% to 16,214 million yen for credit guarantees, and up 5.2% to 175,003 million yen for credit card cash advances.

(3) Other Group Companies

i) Small Business Loans

Business results at Businext, a joint venture between AIFUL and Sumitomo Trust & Banking Co., Ltd., have been steady with the improved precision of the corporate scoring system introduced in April 2004, proactive marketing activities and the improvement in economic sentiment. As a result, the company recorded its first single-year profit in fiscal 2005 since its establishment.

Moreover, following the Nagoya Branch and the Sendai Branch last year, Businext's Fukuoka Branch opened in April 2005, aiming to consolidate a new marketing organization that can cater adequately to the financing needs of sole proprietors and small and medium-sized businesses in core urban areas. Apart from this, Businext opened new branches based primarily on face-to-face sales visits in Niigata City and Utsunomiya City in May 2005, in an active expansion to meet even more financing needs.

As a result, at the end of the current interim period, loans outstanding at Businext stood at 59,772 million yen, up 59.7% year-on-year.

City's Corporation has concentrated on acquiring good quality customers by turning its marketing expertise into manuals and making the most of these manuals to empower its human resources. Due to the improvement in business sentiment at small and medium-sized enterprises, the widening base of economic recovery, the effect of the new branches opened since last fiscal year (the total number of branches at the end of the current interim period stood at 57), and sales of Super Business Loan, a low interest product launched in June 2005, loans outstanding at City's grew steadily to reach 57,175 million yen at the end of the current interim period, up 57.4% year-on-year.

ii) Consumer Finance

Tryto Corporation has further expanded its business in an efficient manner, including opening the Hakata Eki-mae Branch in the Kyushu area in June 2005, and has also steadily increased the number of new customers through means such as TV commercials. As a result, loans outstanding stood at 61,846 million yen at the end of the current interim period, up 10.6% year-on-year.

Moreover, home equity loans, which Tryto began handling in October 2004, recorded 1,477 million yen in loans outstanding at the end of the current interim period.

Wide Corporation is seeking to actively expand its business in eastern Japan and has also recommenced TV commercials. As a result, loans outstanding totaled 98,770 million yen (including 7,000 million yen in off-balance sheet receivables resulting from securitization) at the end of the current interim period.

In addition, loans outstanding at TCM Co., Ltd., which became a consolidated subsidiary in fiscal 2004, was 9,224 million yen. TCM will continue to pursue even greater business efficiency and synergistic effects as a member of the AIFUL Group in the future.

Furthermore, business results at Passkey Co. Ltd., which became a consolidated subsidiary during fiscal 2005, recorded 7,275 million yen in loans outstanding at the end of the current interim period, as steady growth demonstrated the synergies derived from joining the AIFUL Group.

iii) Servicer

AsTry Loan Services Corporation, a joint venture with Aozora Bank, has concentrated diligently on expanding the claims handled in its management and collection of a range of money claims.

iv) Venture Capital

New Frontier Partners Co., Ltd., a venture capital business, has been active mainly in investing in new ventures as well as secondary and content investment, and its loans outstanding stood at 3,975 million yen (including investments from funds) at the end of the current interim period.

As a result, AIFUL and its subsidiaries had 2,170,122 million yen in loans outstanding, up 6.4% year-on-year, 283,097 million yen in installment receivables, up 8.0%, 147,469 million yen in credit guarantee installment receivables, up 8.6%, and 10,345 million yen in other business, up 4.9%, at the end of the current interim period. The amounts above include 166,278 million yen in off-balance sheet loans due to securitization (including 98,621 million yen in loans outstanding and 67,657 million yen in installment receivables.)

C. Status of Capital Procurement

During the current interim period, the AIFUL Group has endeavored to further diversify and disperse its methods of fund procurement, raising 40.0 billion yen through straight domestic bonds, 30.0 billion yen through securitization, and 500 million yen through US dollar-denominated straight bonds. Moreover, the Group has also expanded its business with mega-banks to further deepen its procurement base, including strengthening ties with the financial institutions with which it already conducts business.

As a result of these efforts, the balance of funds procured directly and indirectly during the current interim period was 1,723,199 million yen, up 4.0% year-on-year.

In the future, the AIFUL Group will work to secure stable, low cost funding through an expansion in the classes of investors by conducting proactive investor relations activities and reinforcing its ties with its business partners.

D. Overview of Performance

As a result of the factors described above, the AIFUL Group's operating revenue for the current interim period increased by 6.4%, to 272,802 million yen.

AIFUL's non-consolidated operating revenue grew 1.6% year-on-year to 172,607 million yen, comprising 63.3% of the Group's revenue. LIFE recorded operating revenue of 65,530 million yen, an increase of 9.5% year-on-year, comprising 24.0% of the Group's revenues.

Of consolidated operating revenue, 245,054 million yen, or 89.8%, was accounted for by operating interest on loans, 14,088 million yen or 5.2% by revenue from credit card shopping and per-item credit, 4,150 million yen or 1.5% by credit guarantee revenue and 9,508 million yen or 3.5% by other revenue.

AIFUL's operating interest on loans accounts for 68.4% of the Group's consolidated operating interest on loans. This figure can be broken down into 80.8% in unsecured loans, 16.6% in home equity loans, and 2.6% in small business loans.

Operating expenses for the AIFUL Group totaled 197,829 million yen, up 3.8% year-on-year. Of this amount, AIFUL's non-consolidated operating expenses accounted for 58.8%, or 116,231 million yen, of this total, while LIFE's operating expenses accounted for 27.3%, or 53,952 million yen.

Total Group operating expenses can be broken down into 76,390 million yen (or 38.6%) for bad debt-related expenses, 18,940 million yen (or 9.6%) in financial expenses, 14,645 million yen (or 7.4%) in advertising expenses, 29,509 million yen (or 14.9%) in personnel expenses, and 13,454 million yen (or 6.8%) in commissions paid.

The 1,187 million yen in write-down of consolidation adjustment account accrued with the purchase of consolidated companies was recorded as an operating expense.

As a result of the foregoing, consolidated operating income for the current interim period rose 13.8% to 74,972 million yen, ordinary income was up 15.5% to 75,757 million yen, and net income increased 35.1% to 44,210 million yen. AIFUL's non-consolidated operating income rose 6.4% to 56,376 million yen, ordinary income climbed 9.1% to 59,663 million yen, and net income rose 17.8% to 35,569 million yen.

E. Outlook for the Fiscal year Ending March 2006

In terms of the outlook for the future, amidst the improvement in the Japanese economy, a further intensification in the brisk competition to acquire new customers is expected in the consumer finance industry due to restructuring and the entry of IT companies. However, while the environment will be challenging, it also has promise because of the appearance of positive factors, such as an improvement in the unemployment rate and a decline in the number of personal bankruptcies.

In response to these challenges, the AIFUL Group will shift from the traditional retail sector that targets loans for individual customers to a more broadly defined retail sector that encompasses business loans for small and medium enterprises, and will promote diversification in its products and its channels for customer acquisition. The Group will strive to increase its balance of high-quality loans, build the Group's brand value and generate synergistic effects. Working for maximal cost reductions and all-round improvements in management performance, the Group will maintain steady flows of income.

In the year ending March 2006, we predict a 6.7% rise to 552,941 million yen in consolidated operating income, a 13.1% increase to 153,000 million yen in ordinary income, and a 17.1% increase to 89,116 million yen in net income. We forecast that AIFUL's non-consolidated operating income will increase 1.6% to 346,097 million yen, ordinary income will grow 7.5% to 121,000 million yen, and net income will rise 6.9% to 71,934 million yen.

2. Qualitative Information on Changes in Consolidated Financial Position

A. Assets

Loans totaled 2,071,500 million yen, an increase of 7.9% year-on-year. This was primarily due to steady increases in Group loans. Wide Corporation's loans amounted to 91,770 million yen, Businext's loans totaled 59,772 million yen, and City's loans were 57,175 million yen. Installment receivables rose 28.1% year-on-year to 215,438 million yen, due to the steady progress made by the credit card shopping and per-item credit businesses at LIFE Co., Ltd.

Customers' liabilities for acceptances and guarantees rose 8.6% to 147,469 million yen as a result of AIFUL's active promotion of their guarantee businesses.

While allowance for bad debts is on the decline at each group company now that bad debts have peaked out, expansion in the scale of the Group increased allowance for bad debts 2.3% year-on-year to 158,782 million yen. Interim consolidated loans and installment receivables do not include 166,278 million yen in receivables (98,621 million yen in loans and receivables and 67,657 million yen in installment receivables) taken off the balance sheet by securitization of receivables at LIFE and Wide Corporation.

The consolidated adjustment account was 10,139 million yen, down 14.6% year-on-year.

B. Liabilities

Total capital procured, including debt, commercial paper and bonds, rose 4.0% year-on-year to 1,723,199 million yen. This was due to an increase in the demand for funds corresponding with the steady increase in operating receivables at Wide, Businext, and City's.

C. Shareholders' Equity

Consolidated shareholders' equity at the end of the current interim period was 661,718 million yen, and the equity ratio stood at 24.7%. AIFUL's non-consolidated shareholders' equity was 619,847 million yen, and the equity ratio stood at 29.1%.

D. Cash Flows

Despite a decline due to the decrease in the allowance for bad debts and growth in loans outstanding, including operating loans and installment receivables, cash and cash equivalents ("cash" below) at the end of the current interim period stood at 124,542 million yen, up 15,577 million yen compared with the end of fiscal 2004. This increase was a result of financing activities that included the issuance of corporate bonds and changes in the scope of consolidation.

(1) Cash flow from operating activities

With net income before taxes of 75,313 million yen, net cash used by operating activities fell 30,978 million yen, compared to a decrease of 31,679 million yen for the same period last year, due to a decrease in the allowance for bad debts, an increase in loans and other operating receivables and to the payment of corporate tax.

(2) Cash flow from investing activities

Despite a decline due to the acquisition of fixed assets, net cash used by investing activities rose 365 million yen compared with an increase of 23 million yen in cash used in the same period for the previous year through such activities as collection of loans.

(3) Cash flow from financing activities

Financing activities generated net cash of 46,004 million yen, compared with an increase of 78,968 million yen for the same period a year earlier, due to implementation of direct procurement, including the issuance of corporate bonds.

IV. Business Risk

The main factors that may affect the business performance, share price and financial position of the AIFUL Group are those described below. In addition, matters which are certainly not categorized as risk factors but which are considered important in making investment decisions or in understanding business activities are also described, in an effort to be even more proactive in disclosing information to investors. Aware of the potential for these risks to occur, the Group endeavors to avoid their occurrence. However, the following descriptions do not include all risks. Material in the text relating to the future was current as of September 30, 2005.

1. Legal Regulations

A. Business Regulations

In terms of the legal regulation of business, the loan business, including the AIFUL Group's mainstay consumer finance business, is subject to the application of the Money-Lending Business Control and Regulation Law (called "Money-Lending Business Regulation Law" below) and the Law concerning the Regulation of Receiving Capital Subscription, Deposits, and Interest on Deposits (called "Capital Subscription Law" below). Under these laws, business is subject to a range of regulations. These include the prohibition of excessive lending, the publication of loan terms, the advertising of loan terms, the prohibition of exaggerated advertising, the issue of documents, the issue of receipts, the preparation of account books, limitations on the acquisition of blank powers of attorney, regulation of collection activities, surrender of claim documents, the posting of signs, regulation of the cession of obligation, the appointment of managers to handle lending operations, the carrying of identification documents, and the legal regulation of the items to be entered on payment notices.

In addition, the Administrative Guidelines for Precautions Regarding Financial Supervision of the Financial Services Agency of Japan, the supervisory agency, dated October 29, 2003, set standards for preventing excessive lending. The amount that one lender can lend to a borrower in unsecured, non-guaranteed loans is 500,000 yen or an amount equivalent to 10% of the annual income of the borrower.

Amendment of these laws and regulations in the future could affect the performance of the AIFUL Group depending on the details.

Moreover, the AIFUL Group's credit card shopping and per-item credit businesses are subject to the application of the Installment Sales Law. Business is subject to a range of regulations based on the application of the Installment Sales Law. These regulations include the publication of terms of business, the issue of documents, the limitation of the amount of compensation for damages accompanying the cancellation of contracts, pleas against installment sales service providers, the prevention of purchases that exceed capacity to pay, and the prevention of consumer problems related to continuous service. Amendment of this law in the future could affect the performance of the AIFUL Group depending on the details.

B. Lending Rate

The Law to Partially Amend the Money-Lending Business Control and Regulation Law came into force on June 1, 2000, and under the Capital Subscription Law, the maximum lending rate for when money lenders make loans as part of business operations was reduced from 40.004% per annum to 29.2% per annum, and infringements are subject to criminal penalties. However, the maximum lending rate at the AIFUL Group is lower than this, so it is not considered to have had a particular impact on the earning capacity and financial position of the Group. In addition, Paragraph 2 of Article 12 of the Supplementary Provisions of the Law to Partially Amend the Money-Lending Business Control and Regulation Law and the Law concerning the Regulation of Receiving Capital Subscription, Deposits and Interest on Deposits (called "Amended Money-Lending Business Regulation Law and Capital Subscription Law" Below) promulgated on August 8, 2003 sets a target of three years after the enforcement of the Amended Money-Lending Business Regulation Law and Capital Subscription Law for the necessary review of Paragraph 2, Article 5 (Ceiling Interest Rate) of the Capital Subscription Law, taking into consideration demand for funds and other economic and financial conditions, the financial resources of borrowers, the progress in the establishment of lending rates in accordance with creditworthiness, and other circumstances in the business of money lenders. If the maximum interest rate under the Capital Subscription Law is reduced to a level lower than the current rate, it could affect lending-related businesses and performance at the AIFUL Group.

In addition, under Paragraph 1 of Article 1 of the Interest Limitation Law, a contract for interest on a cash loan for consumption is considered invalid with regard to the portion in excess of the interest ceiling (20% when the principal is less than 100,000 yen, 18% when the principal is less than 1,000,000 yen, and 15% when the principal is 1,000,000 yen or more). Under Article 43 of the Money-Lending Business Regulation Law, when the document specified in the same Law has been issued to the borrower at the time of the loan and the borrower has voluntarily paid the excess portion as interest, and these payments are based on the contract, which is the issued document specified by the same Law, this payment is regarded as the repayment of valid interest on the debt, notwithstanding the provision of Paragraph 1 of Article 1 of the Interest Limitation Law. However, so far a number of lawsuits have been brought for the repayment of the excess portion on the interest ceilings stipulated by the Interest Limitation Law due to a lack of preparation in the industry of the matters to be entered on the contract document specified in the Money-Lending Business Regulation Law, and a number of rulings in favor of these suits have been passed down. A number of lawsuits for the repayment of excess interest have also been lodged against the AIFUL Group. There have been cases in which the plaintiffs' claims that the Group did not fulfill its obligation as a loan business operator to issue the necessary documents required for repayments under the Money-Lending Business Regulation Law have been recognized, as well as cases in which the Company has made repayment of excess interest based on settlements. In addition, it is difficult to predict the trend for similar demands for repayment that are currently being lodged or that may be lodged in the future.

C. Financial Services Agency Administrative Guidance

Based on the Money-Lending Business Regulation Law, when the AIFUL Group, which operates a money-lending business, concludes a loan agreement or a guarantee agreement, and extends a loan, it has an obligation to issue a document that records the specified matters concerning the terms of the loan immediately to the customer, who is the borrower, and the guarantor.

The Administrative Guidance require lenders to issue a document that records all the statutory matters immediately whenever a customer borrows funds from an ATM or staffed office (includes mailing the document immediately) in addition to issuing the prescribed document when the contract is concluded. The AIFUL Group changed the software for the Company's ATMs and has been issuing the document described above that records all the statutory matters since August 2003. In addition, for the ATM's of partner financial institutions, the Company obtains the prior consent of customers to mail the document that records the statutory matters to the customer separately immediately after a loan. However, the Company does not mail the document to customers from which it has not obtained prior consent.

Moreover, the Administrative Guidance was amended on May 1, 2005 with the aim of ensuring the loan provider's duty to give explanations to the person making the agreement and guarantor that accompanies the conclusion of the agreement. Furthermore, the Administrative Guidance is scheduled for amendment during 2005 to add the denial of a request for disclosure of transaction records based on due cause such as the formulation of customer repayment plans or adjustment of debt as one of the major matters that may be covered under "deceit, other unlawful or clearly unfair means" prohibited under paragraph 2, Article 13 of the Money-Lending Business Regulation Law, as well as the clarification of the procedure for identification of the account holder when there is a request for disclosure of transaction records.

The Financial Services Agency has statutory authority to impose administrative penalties for non-compliance by lenders with the obligation to issue documents, including an order to completely or partially suspend business, and restrict the use of ATMs at partner financial institutions as well as cancel registration as a lender. The imposition of such administrative penalties on the AIFUL Group could affect the Group's performance and financial position. New and unexpected expenses may arise from a response to these or further amendments, and the performance and financial position of the AIFUL Group may be affected as a result.

D. Other Laws

(1) Personal Information Protection Law and the Handling of Personal Information

On April 1, 2005, the Personal Information Protection Law and the accompanying guidelines on the protection of personal information established by each government Ministry came into force. Under the law, businesses that handle personal information (within the AIFUL Group, AIFUL Corporation, LIFE Co., Ltd., Tryto Corporation, Wide Corporation, City's Corporation, Businext Corporation, and AsTry Loan Services Corporation fall into this category), with regard to the personal information specified by the Law, have specific reporting obligations when judged necessary. In addition, the competent Minister can recommend or order that the necessary measures be taken when deemed necessary to protect the interests of individuals in the event that specific obligations under the Law are breached.

Furthermore, businesses are required to make notification, clearly state and publish the purpose of use of personal information, obtain the consent of customers where necessary related to the handling of personal information, to supervise sub-contractors when subcontracting the handling of personal information, establish a system for security management from the organizational, personnel and technological perspectives, and publish their basic policy on the handling of personal information.

In accordance with this, after reviewing its handling of personal information, the AIFUL Group has also taken measures to prevent the leaking of personal information before it happens. The performance of the AIFUL Group may be affected due to a loss of credibility in the event of a leakage of personal information for any reason or in the event that the Group is subject to a recommendation or order from the Financial Services Agency.

(2) Amendment of the Judicial Scrivener Law

Effective April 1, 2003, the Judicial Scrivener Law was amended to expand the scope of judicial scrivener services, making it possible for judicial scriveners to appear as representatives in court like lawyers in cases such as arbitration and civil lawsuits (maximum claim of 1.4 million yen) that can be handled by a summary court. So far, there has not been a substantial impact from the increase in the number of lawsuits and adjustments of debt using judicial scriveners as representatives. However, if future trends and further expansion in the scope of services bring about a further increase in lawsuits and adjustments of debt, it may lead to longer repayment plans for the Group's loans and a rise in bad debts. This could affect the performance of the AIFUL Group.

(3) Impact from Amendment of Bankruptcy Law

The amendments to the Bankruptcy Law came into force on January 1, 2005. The amendments seek to streamline and accelerate bankruptcy proceedings. If the amendments are accompanied by a rise in the number of bankruptcies, it could lead to an increase in bad debts, and this could affect the performance of the AIFUL Group.

(4) Possibility of Increase in Adjustment of Debts due to Formulation of the Special Conciliation Law and Amendments to Civil Rehabilitation Law

Under the Law concerning Special Conciliation to Promote the Liquidation of Specified Debts that came into force on February 17, 2000, debtors who are likely to be unable to pay off their debts, are now able to negotiate with creditors via arbitration by an arbitration committee composed of a judge and civil conciliators with specialist knowledge and experience in the necessary laws, taxes, finances, corporate finances, and asset appraisal, depending on the nature of the business operated by the debtor to adjust the debt, such as by changing the due date for payment. In addition, the amendments also made it possible for a debtor to request a suspension of civil execution proceedings against personal assets during the special conciliation proceedings.

Moreover, under the amended Civil Rehabilitation Law, which came into force on April 1, 2001, a number of optional proceedings were adopted to allow the postponement of loan repayments, without adjudication of bankruptcy, for personal loans to bankrupt borrowers. One of the procedures based on the Law does not require the approval of creditors for a draft rehabilitation plan. In addition, in certain circumstances, it makes it possible to avoid losing a personal residence covered by a home loan through the application of the special provisions for home funds.

So far, large numbers of AIFUL Group customers have not requested legal protection from creditors as a result of these introductions to the legal system. However, in the event of an increase in the future due to economic trends and so on, it could lead to longer repayment plans for the Group's loans and a rise in bad debts. This could affect the performance of the AIFUL Group.

2. Capital Procurement Environment: Trends in the Borrowing Rate

A. Interest Rate Fluctuation Risk

The interest rate for the capital procurement of the AIFUL Group varies depending on the market environment and other factors. In order to minimize the risk of interest rate fluctuation, the Company hedges against increases in interest rates using interest caps and swaps in its efforts to reduce the impact of interest rate fluctuations. However, the performance of the AIFUL Group could be affected by future increases in interest rates.

B. Status of Capital Procurement and Diversification

The AIFUL Group has been seeking to diversify its fund raising methods to include borrowing from financial institutions, syndicate loans, corporate bonds, commercial paper and asset securitization. At present, the AIFUL Group considers that there are no difficulties in procuring loan funds. However, capital procurement on the same terms as at present may become difficult if financial institutions become reluctant to lend or borrowing terms deteriorate and the amount of borrowings falls due to a decline in the Company's creditworthiness, and this could affect the performance of the AIFUL Group.

3. Changes in Performance

The AIFUL Group has steadily expanded its earnings through product diversification to include not only specialist consumer finance but also home equity loans and small business loans and promoting diversification in its business to enter the installment sales and credit card businesses as well as loan guarantee partnerships with banks and M&A. Meanwhile, the very framework of the competitive environment surrounding the AIFUL Group is changing from competition in the traditional specialist consumer finance market to the fierce competition of a single overall consumer credit market, which includes banks, credit card companies, installment sales companies, and consumer finance specialists. Moreover, the rise in the number of applications for personal bankruptcy had had a significant impact on the increase in bad debts in the consumer finance industry. Although a decline in the growth rate in the number of applications for personal bankruptcy began to appear in July 2003, and the growth rate has been negative year-on-year since November 2003, it is forecast that the number of personal bankruptcies will remain at a high level as long as the high unemployment rate and the lack of growth in employment income due to the deterioration in the income and employment environments in recent years persists.

The performance of the AIFUL Group may be affected by these types of changes in the market environment.

4. Dislocation, Breakdown and Other Damage to Technology Systems, including Information Network System and Internet Services

The AIFUL Group depends on internal and external information and technology systems to manage its business, and this dependence on software, systems and networks to manage the business office network and the diversity of information that makes up the Group's business, including customer and account data is growing. The hardware and software used by the AIFUL Group could suffer damage or interruption by human errors, natural disasters, power outages, computer viruses, and other similar phenomena or be adversely affected by an interruption in support services provided by a third party, such as a telephone company or an Internet service provider. Such dislocation, breakdown, delay or other damage in information or technology systems could reduce the number of accounts established by new customers, delay the repayment of accrued balances, reduce the trust of consumers in the AIFUL Group's business, or result in other disadvantageous effects on the performance of the AIFUL Group.

The AIFUL Group seeks to duplicate both its hardware and telecommunications equipment to keep damage to a minimum by replacing equipment with backups when damage occurs. However, interruption to the operations of the AIFUL Group may be unavoidable in the event of natural disasters, such as earthquakes or typhoons.

5. Significant Lawsuits

The AIFUL Group is not currently contesting any significant lawsuits. However, the Group is aware of media coverage of claims for application of administrative penalties by certain groups because of the Group's loan collection practices, and it is aware that a number of related lawsuits have been lodged. The precise claims of the groups are not clear at present, but lawsuits could be brought in the future. As a result, new, unforeseen expenses could be incurred, and media coverage of such lawsuits could damage the Group's credibility. This may result in an impact on the acquisition of new customers, stock price formation and borrowing of funds, which may affect the performance of the AIFUL Group.

The Company sets aside a reserve for bad debts that is equivalent to the amount the Company believes it will be unable to recover based on an evaluation of each loan.</p> <p>(Loans in arrears) “Loans in arrears” refers to loans other than claims in bankruptcy for which unpaid interest is not accrued. This excludes loans, however, that are included in loans for which the Company has made arrangements convenient to the borrower for the purpose of reorganization or support of the borrower, such as reduction or exemption of interest or extension of the repayment period on which the Company is periodically receiving payments. (Loans in arrears longer than 3 months) “Loans in arrears longer than 3 months” refers to loans for which the principal or interest payment is three or more months overdue from the day following the scheduled payment date and that are not regarded as claims in bankruptcy or loans in arrears. E. Marketable Securities

(1) End of the previous consolidated interim period (Sep. 30, 2004)

i) Marketable securities with market value

| Segment | Acquisition | Value stated on interim consolidated balance sheet | (In millions of yen) Difference |
|-----------------------------|-------------|--|------------------------------------|
| Other marketable securities | 6,426 | 12,821 | 6,395 |
| Total | 6,426 | 12,821 | 6,395 |

Note: In the current consolidated interim period, 166 million yen was treated as impairment losses on other marketable securities with market value. In the treatment of impairment losses on marketable securities, when the market price falls to 50% or lower than the acquisition price, this is treated as an impairment loss when there is not considered to be any prospect that the market price will recover to the acquisition price. When the decline is from 30% or more up to anything less than 50%, an amount deemed necessary is treated as an impairment loss, taking into account financial position, business performance and share price trends.

| <p>—</p> | <p>(Accounting Standard for Impairment of Fixed Assets) AIFUL adopted the Accounting Standard for Impairment of Fixed Assets (Opinion Concerning Establishment of Accounting Standard for the Impairment of Fixed Assets, Business Accounting Council, August 9, 2002 and Implementation Guidance for the Accounting Standard for Impairment of Fixed Assets (Financial Accounting Standard Implementation Guidance No. 6) Accounting Standards Board of Japan, October 31, 2003) from the current interim period. There has been no effect on income as a result.</p> <p>(Guarantee Obligations) The balances of guarantee obligations related to guarantee operations were hitherto recorded in Notes to the Non-Consolidated Balance Sheets for Interim Period (Liabilities for guarantee). However, the method of recording has been changed to record Customers' liabilities for acceptance and guaranteees under Current Assets and Acceptance and guaranteees under Current Liabilities on the interim balance sheets from the current interim period. The change is due to consideration of the linkage between the balance of Customers' liabilities for acceptance and guaranteees and the amount recorded as Operating revenue for the credit guarantee business. As a result of the change, current assets and liabilities have each increased by 52,668 million yen.</p> | <p>—</p> |

| <p>Explanations for each of the above items follow: (Claims in bankruptcy) “Claims in bankruptcy” refers to loans that are included in loans on which principal or interest payments have been continuously late for a considerable period of time for the reasons cited in Article 96, Paragraph 1, Number 3, Items A through E of the Corporate Income Tax Law Execution Ordinance (1965, Ordinance No. 97), or for the reasons set forth in Number 4 of the same paragraph. The Company sets aside a reserve for bad debts that is equivalent to the amount the Company believes it will be unable to recover based on an evaluation of each loan. (Loans in arrears) “Loans in arrears” refers to loans other than claims in bankruptcy for which unpaid interest is not accrued. This excludes loans, however, that are included in loans for which the Company has made arrangements convenient to the borrower for the purpose of reorganization or support of the borrower, such as reduction or exemption of interest or extension of the repayment period on which the Company is periodically receiving payments. (Loans in arrears longer than 3 months) “Loans in arrears longer than 3 months” refers to loans for which the principal or interest payment is three or more months overdue from the day following the scheduled payment date and that are not regarded as claims in bankruptcy or loans in arrears. (Loans with adjusted terms) “Loans with adjusted terms” refers to loans for which the Company has made arrangements convenient to the borrower for the purpose of reorganization or support of the borrower, such as reduction or exemption of interest or extension of the repayment period on which the Company is periodically receiving payments, and that are not regarded as claims in bankruptcy, loans in arrears or loans in arrears longer than 3 months.</p> | <p>Explanations for each of the above items follow: (Claims in bankruptcy) As on left (Loans in arrears) As on left (Loans in arrears longer than 3 months) As on left (Loans with adjusted terms) As on left</p> | <p>Explanations for each of the above items follow: (Claims in bankruptcy) As on left (Loans in arrears) As on left (Loans in arrears longer than 3 months) As on left (Loans with adjusted terms) As on left</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

Claims in bankruptcy:

Loans to borrowers declared bankruptcy, to borrowers under reorganization, or other similar circumstances, which are part of loans exclusive of accrued interest.

Loans in Arrears:

NPL's exclusive of accrued interest. That are past due for over 5 months or more and held by collection department. This category excludes loans on which interest is being waived in support of business restructuring.

Loans in Arrears Longer than 3 months:

NPL's past due for 3 months or more that do not fall into the above two categories.

Loans with adjusted terms:

NPL's, other than those in the above three categories, in which favorable terms, such as the reduction of interest, have been granted with a view to promoting recovery of the loans.
